

I like girls

I like girls
Girls are fun
Girls are cool
They are so cool
They are designed with comfort in mind
They never make me feel upset
I think girls are the best to be honest
Girls can be beautiful too, like boys

We all have that special girl
Mine comes and goes like seasons
But I went to an all-boys school, so boys always stayed longer

I like going on dates with girls
I like when we talk about the weather
And play with our phones
Thankfully everyone knows about my dates

The truth is a constant struggle
It is not direct and it is not kind
And it always plots its escape

Anyways, I like girls
They never make me feel upset
Sometimes boys make me feel upset
But boys always stay longer
I wish boys were girls
